

A leading insurance service provider offering millions of competitor rate, rule, and form filings available for immediate download at FilingsDirect.com.

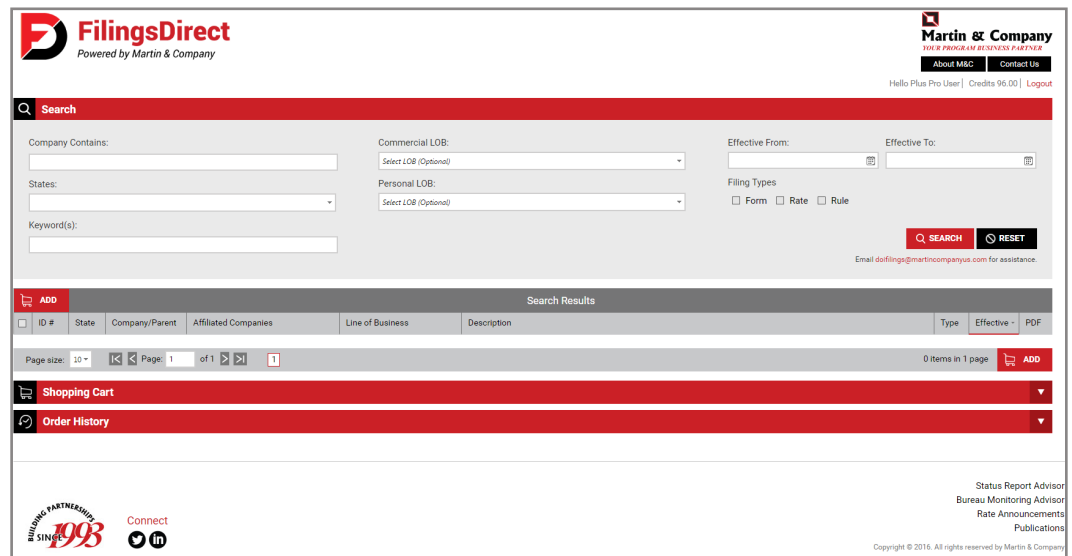

## FilingsDirect.com

When it comes to competitive intelligence Martin & Company has been your trusted source since 1993. We support all 50 states, plus DC and know the competitive market better than anyone in the business. In 1995 we launched FilingsDirect.com, an online searchable countrywide site where you can download the latest state rate, rule and form filings that have been approved by state regulators.

## Why We Are Different

We've all been there trying to locate unique or specific coverages and forms and FilingsDirect gives you that advantage over other online sites. In the end, Martin & Company takes the time up front to provide our clients a better end result.

Our competitive research team opens every state filing to build a summary description that contains keywords, coverages and forms we know are important to you. We go far beyond than just pulling the "filing at a glance" language. We apply a unique approach which sets us apart from other generic searchable sites.

## ReferenceConnect

Through a strategic partnership with Vertafore, M&C's FilingsDirect.com database will now be part of the industry's only integrated insurance search engine, ReferenceConnect. The benefit of accessing this information in the ReferenceConnect search engine improves productivity for users by eliminating the need to search through multiple sites or DOI databases.

Enhance your current ReferenceConnect subscription by adding millions of competitor filings countrywide.

## Feature Highlights

- Over one million state filings
- Online, anytime access
- Expert filing summaries
- Custom research projects
- Corporate Accounts available
- Ability to access filings within ReferenceConnect, along with your other subscriptions
