

FilingsDirect
Powered By Martin & Company

Data Sheet

A leading insurance service provider offering millions of competitor rate, rule, and form filings available for immediate download at FilingsDirect.com.

FilingsDirect.com

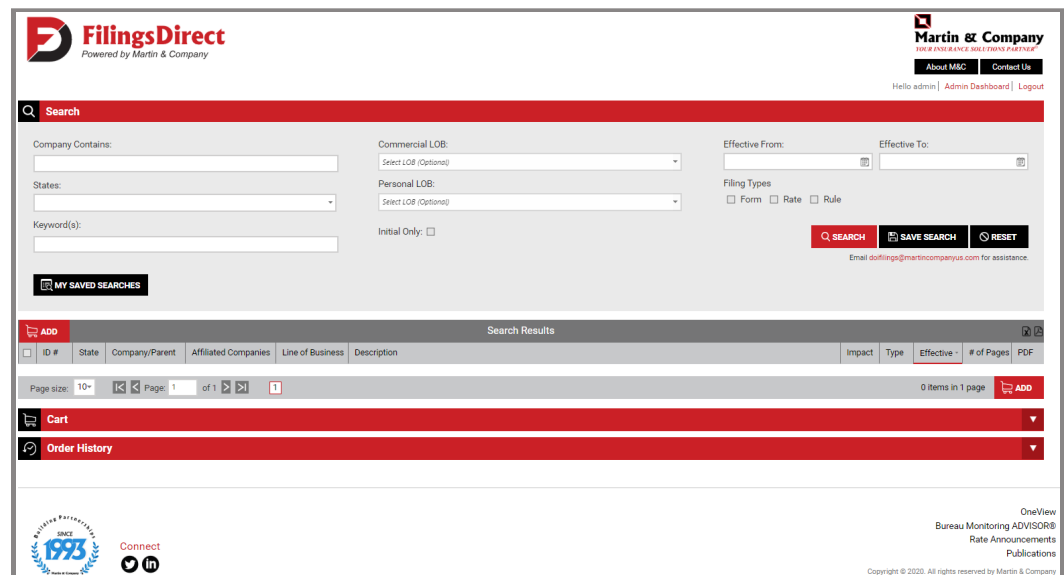

When it comes to competitive intelligence Martin & Company (M&C) has been your trusted source since 1993. We support all 50 states, plus DC and know the competitive market better than anyone in the business. In 1995 we launched FilingsDirect.com, an online searchable countrywide site where you can download the latest state rate, rule and form filings that have been approved by state regulators.

Why We Are Different

FilingsDirect.com was developed to help industry experts spend less time searching for competitor filings and more time on other tasks. We developed a proprietary method for not only allowing the searchability of the filing description, but we also catalog the rate and form schedules, creating one of the most powerful searches in the industry that produces the results you are looking for.

What's New!

Our newest enhancement to FilingsDirect.com provides the ability to save a search and also receive email alerts when filings have been approved that meet your criteria!

ReferenceConnect

Through a strategic partnership with Vertafore, M&C's FilingsDirect.com database will now be part of the industry's only integrated insurance search engine, ReferenceConnect. The benefit of accessing this information in the ReferenceConnect search engine improves productivity for users by eliminating the need to search through multiple sites or DOI databases.

Enhance your current ReferenceConnect subscription by adding millions of competitor filings countrywide.

Feature Highlights

- Over one million state filings
- Online, anytime access
- Saved Searches & Email Alerts
- Custom research projects
- Corporate Accounts available
- Ability to access filings within ReferenceConnect, along with your other subscriptions
