Description: COVID-19Pennsylvania – Message from department regarding Expedited Filing Review Guidance

A number of auto insurance companies have initiated or are contemplating payback or credit programs to reflect the reduced exposure to loss during the current COVID-19 pandemic. We believe these payback or credit programs require a product filing. We are committed to an expedited (i.e. one business day) review of these product filings when they take one of following three forms:

- 1.) An endorsement that attaches to all policies and effectuates a payback; or
- 2.) A rate filing that details the amount of premium reduction and effectuates a payback; or
- 3.) A rate filing for a premium credit.

1.) Endorsement Filing

If the insurer chooses to make an endorsement filing, then it should be filed in SERFF under Filing Type "Form". The filing should include the endorsement and either a cover letter or an explanatory memorandum detailing which policyholders will be receiving a payback, the amount of the payback and how the policyholders will be receiving the payback. The cover letter or explanatory memorandum should also include a date, no more than six months after the filing's approval date, at which the endorsement will no longer be used or valid. An endorsement filing containing this detail will be reviewed immediately upon its receipt.

2.) Rate Filing to Effectuate a Payback

If the insurer chooses to make a rate filing to effectuate a payback, then it should be filed in SERFF under Filing Type "Rate". The filing should contain either a cover letter or an explanatory memorandum detailing the amount of premium reduction per policyholder and for which month(s) it applies. A specific rate/rule manual page is NOT required. A rate filing to effectuate a payback will not require that an endorsement be used to return premium above what will be deemed to be the newly filed rate(s). A rate filing with this required detail will be reviewed immediately upon its receipt.

3.) Rate Filing for a Premium Credit

If the insurer chooses to make a rate filing for a premium credit, then it should be filed in SERFF under Filing Type "Rate". The filing should contain either a cover letter or an explanatory memorandum detailing the amount of premium credit and when it will apply. A specific rate/rule manual page is NOT required. A rate filing with this required detail will be reviewed immediately upon its receipt.
